THE QUESTION

"Who Made the First Piano Player?" Is not of great importance of itself. but the following is interesting:

UNITED STATES OFFICIAL CENSUS REPORT: "In 1895 Messrs. Wilcox & White, of Meriden, Conn., began manufacturing an interfor attachment, and in February, 1897, built their first 'Angelus,' a cabinet plane player. This instrument, the invention of E. H. White, may be regarded as the Ploneer of the Various Similar Attachments which have since been placed upon the Market."

"Who Makes the Best Piano Player?"

Is of vital interest to everyone who is interested in the purchase of an instrument, and

Because it is the only instrument in the world equipped with the devices

necessary to enable you to play with individuality of touch, refinement of manner and with absolute control at all times. These devices are the Phrasing Lever (patented), which enables you to give color and emphasis to a composition according to your mood; in fact, to take every liberty known to the musician.

The Melody Buttons, which enable you to play the melody of a com-position loud and the accompaniment soft and flowing, thus doing away entirely with the mechanical sound so often produced by a Plano Player. The Accentucato Lever, with which you can accent any single note or chord, as your taste may dictate.
